

Vision PowerPack for Cluster Management

Less Work, Better Protection for the Mid-Market to Large Enterprise

The Vision PowerPack™ for Cluster Management is a customized offering that enables companies of any size to manage multi-node environments with push button ease. You can utilize this special PowerPack to:

- Simplify monitoring and management
- Provide faster switches through automation
- Support two or more nodes and multiple clusters from a single interface

Vision Cluster1, the leading technology behind this IBM i offering, is the innovative, easy to use solution for managing, monitoring and protecting your IBM cluster. It simplifies setup, speeds switching, automatically detects issues or inefficiencies, and gives you greater control over day-to-day cluster operations with enhanced monitoring and autonomic capabilities.

Leverage Your IBM and Vision Investments

Developed in close cooperation with IBM, Vision Cluster1 is the industry's first solution to extend the reach of IBM's Power HA for i beyond two nodes and support IBM technologies such as Switched Disk, Cluster Services, Geographic Mirroring and SAN-based solutions such as Metro Mirroring and Global Mirroring. Cluster1 integrates these advanced IBM technologies with Vision's logical replication offerings to provide true enterprise class high availability and disaster recovery protection.

The No Hassle Choice for Managing a Robust, Clustered Environment

If you're embracing cluster technology, you'll want this no-hassle option for its implementation and management. The Vision PowerPack for Cluster Management enables you to get up and running in record time—ensuring your business is fully protected from planned and unplanned outages. So get the maximum business benefits with the minimum amount of time and resources.

Cabela's Relies on Vision Solutions and IBM to Keep Critical Systems Available

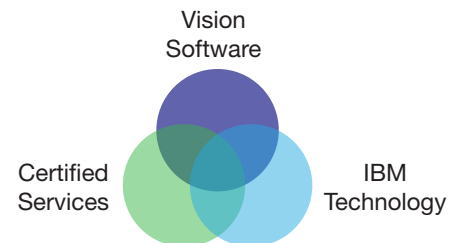

"Vision Solutions and IBM are vital to our High Availability plan. We have been extremely happy with the product as it has matured to handle systems of our size."

– Steve Treinen, Senior Information Systems Specialist

"IBM continues to find value in the investment and support that Vision Solutions brings to our business and mutual customers. We have enjoyed a long, collaborative relationship with Vision."

– Scott Handy, VP of Worldwide Marketing and Strategy, IBM Power Systems.

**Vision Solutions.
Easy. Affordable. Innovative.**

Vision Solutions is the world's leading provider of high availability, disaster recovery and data management solutions for IBM® Power Systems (System i and System p).

Affordable and easy to use, Vision products ensure business continuity, increase productivity, reduce operating costs and satisfy compliance requirements.

As IBM's largest high availability Premier Business Partner, Vision Solutions oversees a global network of business partners and services and support professionals to help you achieve your business goals.

- High Availability
- Disaster Recovery
